Stay calm, do not rush or panic.

Safely stop your work.

Gather your personal belongings if it is safe to do so. Remember your prescription medications if possible; it may be hours before you are allowed back in the building.

Proceed to assembly areas discussed in section orientation and report to your instructor to take roll. Instructors please have attendance sheets available.

Do not re-enter the building until you have been instructed to do so.

Notify your instructor of the location of any injured persons still in the building so emergency responders will be made aware.
